

GYROSCOPES & BULLSEYES

Gyroscopes and Bullseyes are available for immediate rental via our Aquaterra Express service.

PRODUCT APPLICATIONS

- Subsea Structure/Drilling Template installation
- Satellite well drilling
- Platform installation
- Conductor Inclination

PRODUCT BENEFITS

- An installation aid to ensure structure levelness/verticality, orientation and heading - critical equipment for successful tieback operations
- Field proven with real-time data and accurate orientation and positioning of subsea Drilling Templates, Guide Bases, Subsea Trees, Protective Structures, Conductors and more
- Fast lead time - as part of our Aquaterra Express rental tools and equipment service
- Retrievable after use via monitor line or ROV

GYROSCOPES & BULLSEYES

THE COMPLETE PACKAGE

- Calibrated Gyroscope
- Bespoke mounting frames
- Electrical Umbilical

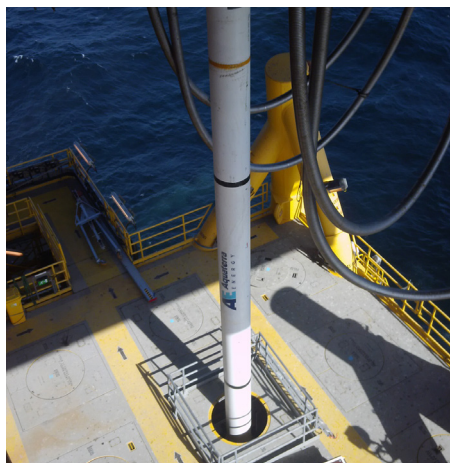

OTHER PRODUCT FEATURES:

- Remote monitored Gyroscope - reduces reliance on Divers/ROV and therefore improves operational safety
- Designed with no moving parts making them quick and simple to calibrate and highly reliable
- State-of-the-art retrievable fibre optic systems providing real-time data
- Provides confirmation of conductor verticality for new satellite well drilling
- Simplistic visual bullseyes available for less demanding applications
