

Manual or hydraulic AQC adaptors are available for immediate rental via our Aquaterra Express service.

PRODUCT APPLICATIONS

- Onshore or offshore
- Quick connections
- High-pressure riser
- Low-pressure riser
- Wellheads

PRODUCT BENEFITS

- Reduced make-up and break-out times - under 20 minutes for the manual 18 ¾ 15k box
- Excellent fatigue and bending/tension/pressure performance as designed for dynamic applications
- Reduced capex and opex - reduced make-up and break-out times means less rig time is required
- Improved safety - online make-up of flanged connectors and the manual tightening of studs and nuts brings increased safety risks and challenges
- Fast lead time - as part of our Aquaterra Express rental tools and equipment service
- Compatible with Vetco NT2 profiles

THE COMPLETE PACKAGE

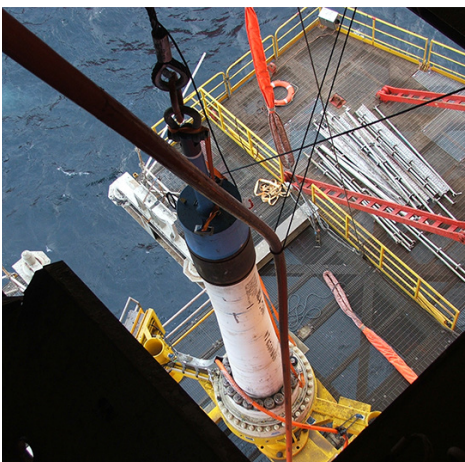

A typical rig BOP connection package includes:

- 1 x AQC Box
- 1 x AQC Pin
- 1 x AQC BOP Test Stump and BOP annular test tool
- 1 x AQC Running Tool

OTHER PRODUCT FEATURES:

- Pins, boxes, running tools and test stumps available in standard/non-standard configurations - weld necks, different end outlet requirements and differing bore/pressure/temperature ratings
- Multi-bore AQC options available (dual, triple-bore etc.)
- The AQC utilises a licensed Greyloc Products seal ring profile
- OEM designed and tested (API 16A, DNV-GL E101 and PR2 qualified)
- At least as strong in combined bending/tension/pressure as the corresponding size and pressure classification API flange, but specifically designed and tested for dynamic applications
- Box OD matches corresponding size and pressure classification OD of an API flange facilitating running clearances
- Less than 5 minutes for the hydraulic option
- Also available as a new build in as little as 6 weeks for sale applications
- Rebranding service, to API 16AR, available for similar connector types such as the GE Vetco NT-2 Drilling Adapters (lower cost and faster 5 yearly overhaul)
