

PRESS RELEASE

Aquaterra Energy showcases offshore innovation at ADIPEC

Aquaterra Energy, the specialist offshore engineering solutions company, will be showcasing its proprietary conductor supported platforms and riser systems with scale models at ADIPEC 2013, which are set to steal the show.

The company will be exhibiting at ADIPEC 2013 in Abu Dhabi from 10th – 13th November on stand 8220 in the UK National Pavilion.

The company has a track record and reputation for delivering complete end-to-end solutions for its leading conductor supported platforms and risers systems to the global energy industry, as well as an extensive equipment inventory.

Gary Hackett, VP International Business Development at Aquaterra Energy

The Middle East is a strategic priority for an Aquaterra Energy presence as this region presents excellent shallow water opportunities which play to the company's experience and strengths. Aquaterra Energy's team has many years' experience of working offshore in diverse and challenging environments worldwide.

Gary Hackett, VP International Business Development at Aquaterra Energy, who is attending the event commented: "As we grow and move into additional markets we can clearly see how our innovative solutions can add great value to a variety of expanding projects. We bring fresh and pioneering ideas to what is a very established market here in the Middle East, which is why we're pleased to be exhibiting at ADIPEC 2013.

"Our cost effective rig installed Sea Swift platform for example, has the potential to become a real game changer for those clients seeking fresh and efficient ways of developing their assets and we see this particular market place as a region where such innovation would be welcomed."
